TANGO ULTRA

35° 2.0 max

The JOOLA TANGO ULTRA was developed with the short-pip blocker in mind. This rubber features a soft Balance sponge that uses Tensor technology to absorb the ball's momentum during passive blocking, while providing explosive energy for active blocking and attacks. Keep your opponents on their toes with the JOOLA TANGO ULTRA!

Precision line 45,90 €

CWX

50° 0X 0.5 0.9 max

Equip yourself with the rubber of legendary defender Chen Wei Xing! The JOOLA CWX features a hard Momentum sponge integrated with Tensor technology to create ideal conditions for backspin strokes. Meanwhile, the unique pimple structure allows for extreme chop defence with maximum control. The JOOLA CWX suits all aspects of modern defensive play!

Precision line 49,90 €

[illegible]

BALANCE SPONGE

A sponge which captures equilibrium of spin, speed, and control, creating a superb balance of everything you need to step up the offense, or control the table.

TENSITY SPONGE

The JOOLA Tensity is a large-pored sponge that utilizes its air pockets like a spring to harness and reflect elastic potential energy back into the ball to create a high catapult effect.

ENHANCED TRACTION

Enhanced Traction Surface technology enhances dynamic friction between the ball and the rubber to allow players to deliver controlled hits and spins.

**HYPER TRACTION**

Ensure every shot comes through exactly as intended with our tackiest, most precise surface technology yet. Our barrier-breaking Hyper Traction Surface provides a vastly improved ability to maximize spin.

MOMENTUM SPONGE

The JOOLA Momentum is a medium-pored sponge that utilizes elastic potential energy to offer direct power and high-piercing force for longer trajectory shots.

GIGA-CELL SPONGE

This thick and large pored sponge offers an eruptive reaction for all your offensive table tennis techniques, along with a higher arching trajectory for exceptional accuracy for your aggressive game.

**ULTRA TRACTION**

Innovative technology that gives stickiness to the surface structure of the rubber. Achieve the most extreme rotation values with the improved grip.

KINETIC TENSION

Reach the extremes of acceleration and speed with an extreme tension and explosive topsheet. The Kinetic Tension Surface is perfect for high pace exchanges, also offering enhanced grip contact for impressively dynamic results.

HYPER BOUNCE SPONGE

The vibrant purple of the Hyper Bounce Sponge symbolizes the intensity this sponge brings to your game. This groundbreaking sponge has been engineered to possess massive amounts of potential energy, which is released upon ball contact to create explosive power for each and every attack.

**SWEET ZONE**

With a particularly forgiving bounce behavior, the SWEETZONE technology increases the optimal hitting area on the rubber. The player receives a pleasant ball feedback and gains confidence in his shots. The sensitive top sheet enables a longer dwell time and gives the player the opportunity to better control the trajectory of the ball.

**ADVANCED TRACTION**

The high-friction Advanced Traction Surface wraps and propels the ball from the rubber to generate significantly more friction upon ball contact, resulting in higher rotation and spin quality.

ZHOU QIHAO HYPER ARY-C 45

FL ST PEN

HYPER ARY-c fibers aligned diagonally at a 45° angle exhibit increased flexibility. This results in extended ball contact time and unprecedented spin development. The extremely powerful HYPER ARY-c blade now plays more sensitive and controlled.

Premium line

209,00 €

ZHOU QIHAO HYPER ARY-C 90

FL ST PEN

The power wood of the Chinese national player: ZHOU QIHAO! Vertically aligned HYPER ARY-c provides an unprecedented catapult effect and extremely clear feedback. The tight Koto outer layer additionally provides a direct, hard stroke and thus reinforces the maximum energy transfer.

Premium line

209,00 €

VYZARYZ TRINITY

FL ST PEN

The JOOLA VYZARYZ TRINITY is a complete game changer! In a JOOLA first, this blade contains the revolutionary X3, a state-of-the-art super composite weave. Horizontal layers of PBO-c were woven with vertical layers of ARY-c. Imagine the ability to combine power, force, feeling, and accuracy, all in one blade! The outer layer of Limba adds even more touch to every shot.

Premium line

249,90 €

NOBILIS PBO-C

FL ST PEN

Play like an elite athlete with the JOOLA NOBILIS PBO-c! In this blade design, the PBO-c layer is placed directly in-between the Kiri core and the thicker 1.2mm Hinoki outer layer. The high-quality Hinoki outer veneers give the blade prolonged ball contact time and allow for the most extreme spin with high ball trajectories. The JOOLA NOBILIS PBO-c will take your offensive game to the next level!

Premium line

189,00 €

ZELeBRO PBO-C

FL ST

Arm your game with the JOOLA ZeLeBRO PBO-c! This 5+2 ply offensive blade generates explosive and direct power without losing control. The focus of the JOOLA ZeLeBRO are the 2 PBO-c layers positioned directly under the upper Limba layer. This combination produces an enlarged sweet spot, a lot of repulsion, and a medium-high trajectory.

Premium line

149,00 €

VYZARYZ FREEZE

The highest-grade ARY-c was selected for the VYZARYZ FREEZE. The ARY-c composite layer gives a hard and powerful feel, while our innovative low tempature curing technique brings extra feeling and touch to the blade. The combination of using high quality ARY-c and a cutting-edge adhesion technique brings a one-of-a-kind blade that has been never seen before.

Premium line

189,90 €

VYZARYZ FREEZE HRD

Powerful ARY-c synthetic layers under a crisp Koto outer layer provide an outstanding directness and penetrating power. The “Cold-Cured” technology manages to combine this explosiveness with control. Extended ball contact time and an impressive sound give you a nice touch and round out this well balanced offensive blade. Be ice cold in your game with the JOOLA VYZARYZ FREEZE HRD!

Premium line

189,90 €

SANTORU KL-C INNER

Control your power with the SANTORU KL-c Inner. Using high quality KL-c in the inner construction of this 7-ply blade allows better feeling while giving you the ability to be precise.

Professional line

134,90 €

SANTORU KL-C OUTER

The power you want and the touch you need is what you will feel with the SANTORU KL-c Outer. This well-balanced 7-ply blade uses KL-c towards the outer plies, which gives you more feel while still generating direct power. On top of that is Limba, which is the perfect layer for all your offensive shots.

Professional line

119,90 €

SANTORU 3K-C

Harness the power of the JOOLA SANTORU 3K-c for your offensive game! This blade utilizes a solid Kiri core with soft Hinoki outer plies. In between is our 3K-c a state-of-the-art Carbon fiber weave, which creates an enlarged sweet spot. This hard-hitting blade with direct responsiveness has a lower trajectory and is perfect for those hard-hitting and driving shots.

Professional line

119,90 €

ROSSI EMOTION

The carbon fibre core of the blade creates an enhanced sweet spot which results in excellent control. In comparison with other blades with carbon core, the JOOLA ROSSI EMOTION impresses with a relatively soft feel and a high trajectory, due to the specially selected Hinoki surface. The blade offers the best possible balance between feeling in passive and speed in active play.

Professional line

99,90 €

FL ST

XYLO 7

All wood, all power! The JOOLA XYLO 7 uses Limba as the top layer, which is perfect for direct and powerful topspin play. The inner layers are comprised of softer Ayous, which provides feeling & feedback on all your shots. The JOOLA XYLO 7 is perfect for the offensive player that prefers the touch of an all wooden blade!

Professional line 79,90 €

FL ST

XYLO 5

The JOOLA XYLO 5 is an innovative all wood blade designed for the top player! This blade consists of a Kiri core with Ayous inner layers, which provide the perfect amount of control and feedback. A specialized heating technique was used on the Hinoki outer veneers to ensure a higher stiffness for speed and overall balance. If you're looking for control, precision, and an all-natural feel.

Professional line 89,90 €

FL ST PEN

TEZZO WARRIOR

The WARRIOR stands strong and confident, a 7 ply inner layer KL-c blade with limba top layer creates a solid, yet reliable, trampoline effect to bring great feeling to your aggressive game and exponential speed output.

Performance line 99,90 €

FL ST PEN

TEZZO GUARDIAN

The GUARDIAN holds its ground in battle, optimal control and feeling from it's all-wood composition provide superb consistency, while the flexible 7-ply composition adds a sting on attack.

Performance line 59,90 €

FL ST AN

ROSSKOPF ALLROUND

The JOOLA ROSSKOPF ALLROUND provides excellent ball feeling. This blade also uses Flow Glue technology to increase its speed. The popular JOOLA ROSSKOPF ALLROUND is great for moderate-attacking, blocking, and countering.

Performance line 59,90 €

FL

ROSSKOPF JUNIOR

The JOOLA ROSSKOPF JUNIOR is an allround children's blade with a smaller and thinner handle. The special blade construction features very soft Limba outer layers, creating the soft touch and high control values that make this an ideal allround blade.

Performance line 49,90 €

FL ST PEN

TEZZO SPARTAN

The SPARTAN is a force to be reckoned with, the fastest and most powerful blade of the TEZZO series. With a solid Kiri core and an outer layer KL-c, this blade offers a crisp and direct contact shielded by a limba top layer to maintain optimal touch.

Performance line 84,90 €

FL ST PEN

TEZZO PALADIN

The PALADIN leads the crusade with tempered wisdom, a unique combination of soft inner layer 3K-sc gives a high vibration feel and exceptional blade flex. With 7 plies and a limba top layer, the Paladin blade is the perfect pairing for firmer rubbers, creating a soft - yet springy effect for ease of play.

Performance line 59,90 €

CHALLENGER CARBON

The JOOLA CHALLENGER CARBON blade is well-suited for playing styles that require more speed. The 2 stiff Carbon layers lining the core increase the blade's sweet spot for an even ball response and produce an incredible amount of speed. The soft Ayous outer veneers create an elastic effect that counterbalances the stiffness of the other plies for more control and a please touch.

Progressive line 42,90 €

CHALLENGER OFF

The JOOLA CHALLENGER OFF blade is ideally suited for the spin-oriented attacker. The Limba outer veneers are preferred by topspin players for the feedback it creates. The Ayous veneers are more flexible, creating an elastic effect and medium touch that promotes more spin with a higher ball trajectory. A medium-fast blade.

Progressive line 36,90 €

CHALLENGER ALL

The JOOLA CHALLENGER ALL blade was designed for the allround player. This blade features medium-soft Lime Wood outer veneers that offer a high degree of control while its hard inner core definitely leaves enough reserves for offensive play. The medium-speed JOOLA CHALLENGER ALL has all the ideal characteristics to suite an allrounder's game.

Progressive line 32,90 €

CHALLENGER JUNIOR

The JOOLA CHALLENGER JUNIOR is an allround blade designed for children using a smaller and thinner handle design. This blade features medium-soft Lime Wood outer veneers that offer a high degree of control while its hard inner core definitely leaves enough reserves for offensive play. The medium-speed JOOLA CHALLENGER JUNIOR has all the ideal characteristics to suite an allrounder's game.

Progressive line 29,90 €

CWX

The JOOLA CWX is the namesake blade of one of Europe's best defensive players, Chen Weixing. This 5+2 ply blade is well-suited for a chopping, but is also capable of fast topspin. 2 layers of black-cloth are utilized in the blade construction to provide increased control.

Precision line 54,90 €

CWX DEFENDER

The JOOLA CWX DEFENDER was designed in partnership with legendary defender Chen Weixing. Featuring a straight handle and a slightly larger head, this blade provides exceptional control and accuracy for close-to-the-table counterdrive play. Lightweight and pliable SAMBA veneers are held together with soft-drying Enzo glue, giving the blade more feel.

LIMBA

A limba top layer provides a soft feel with a higher trajectory on your shots. Perfect for topspin play.

KOTO

A koto top layer provides a firmer and crisper feel on your shots, which is perfect for direct and powerful play.

HINOKI

Hinoki's softer feel gives a one-of-a-kind touch that increases dwell-time for spin and control. All while also giving a catapult effect on the bounce.

ARY-c

The resulting fiber produces a large sweet spot, enabling the player to execute exceptionally fast shots with great precision. When combined with JOOLA's innovative cold-curing technology, in which it's pressed for long periods of time at low temperatures, the ARY-c provides a higher trajectory and a softer touch.

HYPER ARY-c

HYPER ARY-c fibers are enormously powerful and give the player unprecedented , crystal clear ball feedback. At the moment the moment the ball hits the court, there is an optimal transfer of energy in the form of extreme rotation and speed values. At the same time, the typical ARY-c, catapult and sensitive touch is preserved. The reduction of vibration to a minimum enables a very stable and precise offensive game.

PBO-c

PBO is a synthetic polymer used in race cars and aeronautics for its durability and high-elasticity. It is used in PBO-c to complement the hard Carbon, creating a larger sweet spot and a softer stroke feeling.

3K-sc

A softer variant of the JOOLA 3K-c Carbon fiber, the 3K-sc offers more vibration feel in shot feedback and a higher level of blade flex. This helps create a greater spring effect in blades whilst maintaining a softer Carbon feeling.

3K-c

Every strand of fiber in this 3K-c weave is made up of 3,000 individual Carbon filaments. The 3K-c significantly reduces vibrations to create an enlarged sweet spot and produce a flat ball trajectory. Truly an offensive weapon in all aspects, this fiber's most notable characteristic is its hard, direct touch.

KL-c

Best known for its use in bulletproof body armor, lightweight KL-c softens up the hard touch of Carbon to create a medium-hard stroke. Capable of sensitive topspin play, this favored KL-c composite material has the ideal balance of speed, spin, and feel.

X3

The ground-breaking JOOLA X3 fuses the PBO-c and ARY-c into a new super-composite directional weave. Horizontal threads of PBO-c create a uniquely consistent playing feel and touch while vertical threads of ARY-c extend through the handle to provide stability throughout.

ROBOT SHORTY

Simplest handling with multifunctionality is the motto of the tabletop robot ROBOT SHORTY. Variable speeds, 8 different rotation forms, trajectory variations and oscillation option bring a variety of training and application possibilities. Catch net, remote control, large ball container and easy assembly/ disassembly make the ROBOT SHORTY an indispensable part of every training session. Catch net included in delivery.

599,00 €

iPONG V300

The JOOLA iPONG V300 offers everything you need to up your game! This robot holds over 100 40mm+ ping pong balls and shoots at an adjustable frequency ranging from 12 to 70 balls per minute. The JOOLA iPONG V300 features a memory button to save your favorite setting as well as a play/pause button to make adjustments. Use the wireless remote to switch between endless shot options ranging from levels 0-9 for: ball frequency, side-to-side oscillation, topspin speed and underspin speed. Place the robot on the included tilt stand to practice an even wider range of strokes. Start playing like a pro in just seconds with minimal assembly!

Dimensions: 48 x 28 x 28 cm

219,00 €

BALL CATCH NET BUDDY

The JOOLA iPONG ball catching net is the ideal counterpart to the JOOLA iPONG robots. Simply and quickly mounted, the net catches the balls and guides them through an integrated opening into a container/bucket. Refilling the iPong is thus significantly simplified.

59,90 €

iPONG V200

The JOOLA iPONG V200 is perfect for practicing without a partner! The robot holds up to 100 40mm+ ping pong balls and casts at an adjustable frequency ranging from 12 to 70 balls per minute. Use the remote to switch between backspin, topspin, and heavy topspin. Place the JOOLA iPONG V200 on the included tilt stand to practice an even wider range of strokes. This simple, affordable, and fun table tennis robot brings recreational table tennis to a new level of competitive play.

SERVICE PRACTICE NET

The JOOLA Service Practice Net reliably collects balls during service, multi-ball, or robot practice! It uses a built-in funnel design to collect your spent pingpong balls into a container (not included), saving you time and allowing you to easily refill your training robot! The JOOLA Service Practice Net has an intelligent rolling system and practical folding mechanism that allow for easy storage. This is a must for clubs and for players serious about their training.

ART.-NO. 21145

129,00 €

SCORER STANDARD

The JOOLA STANDARD Scoreboard features a fixed tri-fold design, which can be easily collapsed for storage. The durable weatherproof material makes this a great choice for playing in any setting. The JOOLA STANDARD Scoreboard has time-out and home/guest displays with scores 0-30.

29,90 €

SCORER POINTER

The JOOLA POINTER Scoreboard is ideal for club and tournament use! Featuring a spiral spine, the scoreboard easily unfolds and is kept in standing position using the durable storage box as a stand. Time-out cards are included.

34,90 €

SCORER RESULT

The JOOLA RESULT Scoreboard is made from a hard, durable plastic - making it the perfect choice for frequent club use. It features sturdy, non-tear PVC number cards that can indicate 0-5 for sets and 0-30 for points. The design of the JOOLA RESULT Scoreboard acts as a storage case when the scoreboard is closed.

39,90 €

UMPIRE TABLE

The JOOLA Umpire Table is the umpire table of choice for many international events and is suitable for club use. It features a clever selffolding design with built-in handle. It can be safely carried and easily stored.

79,90 €

UMPIRE TABLE WITH TOWEL BOX

The JOOLA Umpire Table with Towel Boxes is the ultimate choice for tournament use! The umpire table is in the center with towel boxes conveniently located on either side. This one-piece design can be carried by one person and be set up in a few seconds. The solid construction ensures longterm usability.

135,90 €

TOWEL BOX

The JOOLA Towel Box is great for tournament use! Made from double wall corrugated, heavy-duty cardboard, the JOOLA Towel Box is incredibly lightweight and easy to set up for events.

25,00 €

PRO BARRIER

JOOLA Pro Barrier is the elegant way to separate individual courts. The low weight as well as the integrated magnetic mechanism to connect the single borders make the handling very comfortable. A table tennis hall completely bordered with the JOOLA Pro Barriers shines in new splendor and gets a professional touch.

5er Pack 140 x 70 cm 199,50 €

PRO BARRIER FLEX

JOOLA Pro Flex Barriers are an elegant way to separate individual table tennis courts. The light-weight, fabric barriers come in a set of 3.

3er Pack 140 x 70 cm 119,90 €

SURROUND BLACK

JOOLA Barriers are ideal for daily club use. Made with sturdy, tear-free PVC, rogue shots will be stopped from entering adjacent courts, so that the flow of play stays undisturbed.

2er Pack 65,00 €

SURROUND BLUE

JOOLA Barriers are ideal for daily club use. Made with sturdy, tear-free PVC, rogue shots will be stopped from entering adjacent courts, so that the flow of play stays undisturbed.

2er Pack 65,00 €

SURROUND TRANSPORTER

JOOLA's new surround transporter impresses with its robust steel construction. The freely adjustable rods for hanging up the surrounds adapt individually to each surround size. This makes the surround transporter ideal for both 2m and 2.33m bands. Furthermore, the rods are rubberized and bent upwards towards the end, so that the surrounds are prevented from slipping off during transport. Rubberized castors and lockable brakes enable safe transport.
